Course	1.0 – 1.5 mm

Available in 10 litre bucket or 20kg bags

***"We find the Silaca Glass abrasive has the ability to cut many coatings very well and leaves an exceptional finish. And being less dense I get more volume to the kilo, so better on the pocket!"***

**Andy Boag, NZRoofTranz**

***"We broadcasted Silaca's clear glass as an anti-slip solution onto a sloping walkway surface and we have a very happy client as a result. Environmental and affordable!"***

**Dave Frost, Anti-Slip Solutions NZ**
